

## PRINCE2® 7. The world's leading project management methodology

PRINCE2® has evolved to meet the needs of the future. It reflects the modern realities of managing successful projects, incorporating the latest processes, tools, and technologies to stay ahead of the curve. Best practice has now become even better! PRINCE2® 7 addresses changes in project management and adapts to evolving working practices and technologies.

### What's New in PRINCE2® 7?

- **Central Focus on People Management** effective people management, recognizing the importance of human capital in project success.
- **Enhanced Flexibility and Customization**, adapting to the unique requirements of each project.
- **Embracing Digital and Data Management** equips you with tools for efficient digital and data management, keeping your projects up to date in the digital era.
- **Integration of Sustainability** into Project Performance incorporates sustainable practices, aligning projects with environmental and social responsibility goals.
- **Compatibility with Agile, Lean, and ITIL** is compatible with popular project management methodologies, enhancing overall project performance

Diagrams have been updated, and four project scenarios included to show how PRINCE2 can be used for different types of projects. The scenarios are used in the Practitioner exam.

### What has not changed with PRINCE2 7?

The essence of what a project is remains the same – it is temporary, it is product-focused, and there should always be ongoing business justification.

The overall structure of PRINCE2 is enhanced by the 7 principles, 7 practices (previously called themes) and the 7 project lifecycle processes.

### Benefits of PRINCE2

- structured method that improves project success
- Provides a defined set of repeatable, scalable, flexible, and tailorable steps

### Benefits (continued)

- Improves efficiency
- Supports cross-organisational collaboration
- Saves time and money
- Helps deliver quality and compliance
- Supports clear roles and responsibilities
- Provides a common language for projects across the organisation

### PRINCE2 Certification

#### Foundation Level

- **Training:** 3 days | **Exams:** 60 minutes, closed book, pass mark 60% (36/60)

#### Practitioner Level

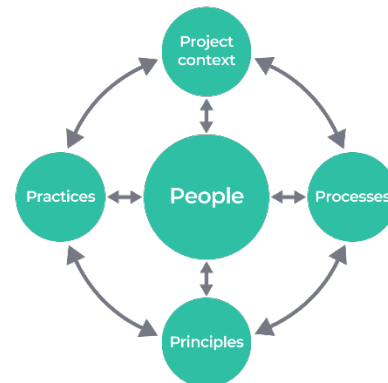

- **Training:** 2 days | **Exams:** 150 minutes, 70 questions, open book, pass mark 60% (36/60)

One of the four Scenarios from the Official Book will be used in the exam.

### Pre-requisites

If you have PRINCE2 5<sup>th</sup> or 6<sup>th</sup> Edition, you just need MyAxelos membership to maintain currency, and you don't need to take the Foundation exam again.

If you have PMP and IPMA certifications, you can bypass the Foundation exam but taking the training course is still recommended.

Yellowhouse is a quality training consultancy based in Australia with an eye on the world.

We believe in quality. We work with best-practice methodologies and training materials.
